Where better comes together

Partnerships in Care Brain Injury Services are experts in neurobehavioural rehabilitation for people with an acquired brain injury or progressive neurological condition.

Brain Injury Services provide:

- Neurobehavioural rehabilitation approach designed to reduce challenging behaviour and maximise functional skills
- Evidenced based bespoke outcome measures showing progress and person-centred care
- A full discharge care pathway comprising of inpatient rehabilitation, transitional rehabilitation, community rehabilitation and inreach and outreach services
- Vocational and full therapeutic programmes
- A full transdisciplinary team led by Professor Nick Alderman

Patients who are referred to PiC BIS usually are:

- Men or women, 18 years of age or older
- Diagnosed with a brain injury including traumatic brain injury or stroke together with possible mental health difficulties
- People with progressive neurological conditions
- People who require intervention, management of behaviour and have physical and/or cognitive difficulties

Services are available in Essex, Northampton and Leicestershire.
