

Do you want to know more about dementia?

The Alzheimer's Research UK public event will give an overview of dementia, its symptoms and challenges. We will have a mix of speakers from research and clinical backgrounds who are currently working in dementia. There will be opportunities for questions to experts in the field as well as socialising with other attendees. There will also be an opportunity to find out how to take part in any upcoming dementia studies at UEA.

Date:	Wednesday 14 th June 2017
Venue:	Enterprise Centre, Ground Floor Lecture Theatre, UEA
Start time:	2.00pm - 5.00pm (arrival and registration 2.00pm - 2.30pm, welcome and presentations 2.30pm – 5.00pm, refreshments during the afternoon)
Talk	Speaker
Welcome	Professor Michael Hornberger - Professor of Applied Dementia Research, Norwich Medical School, UEA
Funding World Class Dementia Research	Robin Brisbourne - Alzheimer's Research UK
Brain Imaging in Dementia	Professor John O'Brien - Foundation Professor of Old Age Psychiatry, University of Cambridge
Medication in Dementia: challenges and opportunities	Dr Yasir Hameed - Honorary Lecturer, UEA and Psychiatrist, Norfolk and Suffolk Foundation Trust
What predicts missed diagnosis among people with dementia?	Dr George Savva - Senior Lecturer, School of Health Sciences, UEA
